

OUR PARTNERS

WorkCentres are currently being operated across the UK and the Republic of Ireland in conjunction with Government Agencies, Local Authorities, Economic development partnerships, Businesses, Charities, Training bodies, Community Groups, Faith based organisations and Prisons.

HOW CAN WE SET-UP A LOCAL WORKCENTRE?

WorkCentres are set-up and supported as a franchised training, learning and working facility. We work from a proven template which means that we are not continually reinventing the wheel. There is no set-up charge and no development costs — just a modest monthly support fee.

Assistance with the creation of your local WorkCentres, along with staff training, all materials and ongoing support is provided through Diversiton - a non profit making body dedicated to inclusion and the promotion of opportunity for all.

If you are looking to build community capacity, increase the efficiency of your organisation, support those in need or leverage the potential of under-employment in your area then please get in touch.

For an informal discussion or for more information please contact

THURSDAY 9:45 AM - 8:00 PM
FRIDAY 9:45 AM - 8:00 PM

Find Work - Earn Money - Help Others - Build Your Career

A LOCAL PARTNERSHIP?

It is common for a range of potential funders and supporters to come together in an area to sponsor a local WorkCentre. We can deliver an information session if you wish to explore this option.

A WHOLE NEW WAY OF WORKING

WHAT IS A WORKCENTRE?

A WorkCentre is a facility where local people learn new ways to find work, earn income, build their careers and add value to their community or organisation.

WORKCENTRES EMPOWER PEOPLE

- 1. Helping the unemployed** to find work, build their income and develop their careers.
- 2. Leveraging the expertise of the under-employed** (e.g. people in local communities share their experience to create opportunities and build local capacity).
- 3. Developing employees** (e.g. Local Authorities and Businesses use this approach to boost staff innovation and creativity by creating new ways of working together).

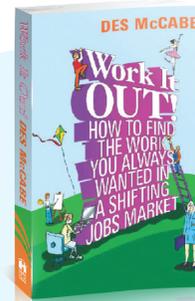

THE INITIAL WORKSHOP

All potential participants are invited to an introductory three hour Workshop. This gives a first hand insight into the approach, content and way of working. The first group of participants are then enrolled at the end of this workshop directly into the WorkCentre!

THE BOOK

The WorkCentre methodology and approach is based upon Des McCabe's best selling book 'Work It Out!: How to Find the Work You Always Wanted in a Shifting Jobs Market.' www.workitout.info

WHAT IS UNDER-EMPLOYMENT?

Under-employment affects those who are unemployed, students and graduates, mothers and fathers at home, those returning to work after a break, those semi retired, freelancers, self-employed, redundant, part-time workers, and yes, even those in a full-time job – who want to do more.

Under-employment is not about being busy for many of us are incredibly busy. It's about our personal effectiveness and achieving all that we believe we should.

So, in a way, we are all under-employed. We can all utilise our skills, experience and expertise more effectively to fulfil what we are capable of. And we can all do better if we work collaboratively to help and support each other.

We do this in our WorkCentres.
